

SUSTAINABILITY POLICY

Eiran Civil Engineering Ltd will continue to have Sustainability at the fore front of all its activities.

Due to the nature of our business we are constantly aware that water is a valuable resource and any wastage is detrimental to environment and ecosystem.

Eiran Civil Engineering is therefore committed to:

- 1, Striving to achieve the highest environmental management and sustainability in all aspects of its operations.
- 2, Adopting appropriate systems to manage sustainability and environment issues.
- 3, Comply with applicable laws, regulations and requirements.
- 4, Conduct its operations in environmentally responsible manner.
- 5, Prevent pollution and minimise waste, disposing all residual waste in a safe responsible and legislatively compliant manner.
- 6, Engaging with staff via Tool Box talks to promote environment awareness and sustainability in the workplace.
- 7, Ensure continuous improvement where applicable.
- 8, Regularly audit and review performance via appropriate verification and certification.
